TO CUSTOMER:				
序号	NAME 名称	SIZE 规格	NUMBER 数量	READY OR NOT 是否准备好
1	ANGLE GRINDER 角磨机		1 set	
2	ELECTRIC HAND DRILL 手电钻		1 set	
3	ARGON ARC MACHINE 氩弧机		1 set	
4	ARGON 氩气		1 bottle	
5	CUTTING DISK 切割片	MODEL: 100	50 pcs	
6	LOUVER BLADE 百叶片		50 pcs	
7	NYLON WHEEL POLISHING WHEEL 尼轮抛光轮		30 pcs	
8	TWIST DRILL 麻花钻	10mm	2 pcs	
	TWIST DRILL 麻花钻	8mm	2 pcs	
9	304 STAINLESS STEEL WELDING WIRE 304 的不锈钢焊丝	MODEL: 1.6	1 kilo	
10	PET PREFORM 瓶胚		100,000PCS	
11	PET CAPS 瓶盖		100,000PCS	
12	LABELS 标签		100,000 PCS	
13	PE FILM 聚乙烯薄膜		500KGS	
14	CANS/LID 罐/盖子		EACH 100,000 PCS	
15	RAW MATERIAL TO MAKE COLA/JUICE/OR RELATIVE PROUCTS 生产可乐/果汁/或相关产品的原料		EACH 1000KGS	
16	CARTON BOARD MATERIAL 纸箱板材料		10000 PCS

## INSTALLATION MACHINERY LINE MUST NEED FOLLOW ITEAMS:

序号	NAME 名称	READY OR NOT 是否准备好
1	Sewage pipe should be connected well in advance.排污管道要提前连接好。	
2	The power supply and electric box should be prepared in advance. A single machine is used as a single electric box (it is not safe to line everywhere in the workshop), especially the bottle blowing machine, which has a large power, needs a separate electric box for power supply,ensure voltage stability,if oltage instability requires a voltage regulator. 电源和电箱提前准备好，单台机器做单个电箱（车间内到处排线不安全），特别是吹瓶机，功率很大，需要单独的电箱供电,确保电压稳定,电压不稳定需要加稳压器。	
3	The air source should be connected and installed in advance (prepare the air compressor required by the filling machine and film packing machine in advance). 气源要提前连接安装好（提前准备好灌装机、膜包机所需的空压机）。	
4	The water source should be prepared in advance, and the pipe connecting tap water or well water to water treatment should be connected in advance. 水源要提前准备好，提前连接好自来水或者井水到水处理的管道。	
5	Prepare the juice granules in advance. The jar for storing the granules must be large enough to ensure the filling speed of the machine (the container size is 500 liters). 提前准备好果汁颗粒，存储颗粒的罐子必须要足够大才能保证机器的灌装速度（储罐的容积大小 500 升）。	
6	Two hydraulic trucks should be prepared for use when moving the machine, and you can also use them when transporting products later. 液压车要准备好两辆，挪动机器的时候用，后期你运输产品的时候也可以用。	
7	Piping from water treatment to mixing system should be prepared and connected in advance. 水处理到混合系统的管道要提前准备并连接好。	
8	The bottle embryo required by the bottle blowing machine is prepared in advance (the correct size has been provided in the group, and the correct bottle embryo is also in the machine). 吹瓶机需要的瓶胚提前准备好（正确的尺寸，机器里面也有正确的瓶胚）。10000pcs	
9	Prepare juice ingredients in advance.调配果汁的原材提前准备好。	
10	10. The correct label of the label machine should be prepared in advance. 套标机的正确标签要提前准备好。	
11	Prepare the membrane required for the film packing machine in advance. 膜包机所需要的正确卷膜需要提前准备好。	
12	Prepare two phone cards in advance for engineers to communicate with . 提前准备两张电话卡给工程师沟通联系用。	
13	Arrange accommodations for engineers in advance. 提前安排好工程师的住宿问题。	

**SHANGHAI OK MACHINERY CO.,LTD**

**Tel: +86 15298811938 - Fax: +86 512 56738573**

**No8 Xiangqun LeyuTown Zhangjiagang City Jiangsu Province China ,215600**

14	All the tools are ready in advance.工具都提前准备好。	
15	The 7-ton forklift should be ready in advance.7 吨的叉车要提前准备好	
16	Customers in the local must have an experienced beverage mechanical engineer who understands the machine principle and electrical principle. 客户当地一定要有一名有经验的饮料机械工程师懂的机器原理和电气原理。	
17	There must be 3-4 local staff to cooperate with our engineers and learn the machine operation process at the same time 配备 3—4 名工作人员配合我们工程师连线，同时学习机器操作流程	
18	If the above list is not ready due to the customer's reasons, the factory will not bear the responsibility for the delay, and the debugging cost caused by the delay will be borne by the customer. 如因客户原因以上清单没有准备好，导致的延误工厂不承担责任，届时延时产生的调试费一律由客户承担。	
19	The ticket must be a round-trip, unchangeable order.机票必须是来回不可改的定单。	
20	If filling a beverage containing gas, it is necessary to prepare carbon dioxide and the correct ventilation pipe in advance 如果灌装含气的饮料，需要提前准备好二氧化碳以及正确的通气管道	
21	If did not buy the raw water pump, need to prepare the required raw water pump in advance 如果没有买原水泵，需要提前准备好所需的原水泵	
22	If the filling line have water treatment, also have not purchased the raw water tank in our company, need to prepare the raw water tank in advance 有水处理的话，如果没有在我公司购买原水罐需提前准备好原水罐	
23	Check in advance whether there is a domestic power supply in the factory and how much voltage it is 提前确认好工厂里面是否有家用电源，是多少电压	
24	Confirm the power of the machine in advance, and arrange enough power supply wires to ensure that all the machines can withstand when they are turned on at the same time 提前确认好机器功率，配足足够大的进电电线，确保所有的机器在同时开启的时候能承受得住	
25	Check whether the plant voltage is warm in advance, and prepare the regulator in advance if it is unstable 提前检查工厂电压是否温度，如果不稳定的话提前准备好稳压器	
26	The raw materials required in the use of the machine, such as the chiller needs to prepare antifreeze, and the generator needs to prepare diesel and antifreeze in advance 机器使用过程中需要的原料，如冷水机需要准备防冻液，发电机需要提前准备柴油和防冻液
